

# MAXIMUM DUTY 2WD BUSES

ALL PHOTOS ARE OF A 34 SEAT BUS  
BUILT ON MITSUBISHI FUSO FIGHTER  
WITH AND WITHOUT R.O.P.S.

ATW Buses can be transferred to a new replacement chassis once the service life of the truck has been reached. All internal and external panels are of composite construction and are extremely tough, easy to repair and even easier to maintain. They are typically hosed out inside to be cleaned.

## FEATURES:

- Composite panels over steel frame.
- Heavy duty truck platform.
- Available on various manufacturers chassis.
- High ground clearance for unsealed roads.
- Full forward vision through pass through design.
- Driver and passengers have uninterrupted contact.
- Wide range of seating available, standard with heavy duty canvas.
- Available in 10-42 seats.
- Extra cab R.O.P.S available on request.
